

I am asking that you reject NABs petition 04-160. I am CHOOSING to pay to listen to commercial free music. I should be able to make that determination. XM Radio offers a wide variety of COMMERCIAL FREE music. I am tired of listening to the garbage currently on the radio played by the radio stations. I do not like talk radio and XM allows me to listen to music of MY choice. As MY representative, you should start listening to the people that vote you in, not the people that waive the dollar in front of your face.
